

An anarchist Lukáš Borl captured and imprisoned

Lukas Borl has been an active anarchist organizer who is in the movement. He has been involved in many projects, protest, he held talks and presentations on different topics, always criticizing hierarchical social structures and capitalism. In the past few years Lukas has been an active member of Solidarity network of Most (his hometown) an organization that supports exploited workers and protects them against the Co's. Also, he was one of the founders of anarchist community center "Ateneo" which was a site for contra-cultural, social and political activities in the province of Most. All this time Lukas has been expressing his anarchist ethics very openly on public. Since Operation Fenix begun, he actively has been fighting the repression and criticized the police even more than before, which lead towards his persecution on several occasions. Some months from after the Fenix first wave he felt being under special focus of the state agents. He said that every step of his was surveyed and he was followed by undercover cops, had police checks around the place where he stayed at and the agents were harassing the people in his surrounding. Under these circumstances Lukas decided to move to underground - to illegality. By the end of 2015, media published the message that Lukas is internationally wanted. Police of Czech republic confirmed that information when they made a profile of Lukas on their website. In that time police illegally entered several flats with the excuse of looking for Lukas. There was no trace of him though. Unfortunately, he was captured in the city of Most on September 4th. As he said in his letter he couldn't resist the feeling of loneliness from his closest ones, because this itself is a form of imprisonment itself and when he went to his home town, a police caught him. Ironically the cop who saw him and arrested him was his classmate from elementary school. That confirms the old truth, that ALL COPS ARE BASTARDS. Once they have an uniform, they will follow orders regardless of their own feelings. Now Lukas is kept in hands of enemies in custody jail in Litomerice. From his letter we can see that he is doing pretty alright and keeps a strong spirit. He is ready to continue the struggle. A letter and or any kind of solidarity action is welcome and would mean a lot for him, mostly to remind him that he is not alone in this.
